

Find out about the Biodiversity Network

Select sites in the City of Cape Town's Biodiversity Network. In small groups, research these sites on the web. Prepare a presentation to inform the class about your site:

- Where is it and how large is it?
- What ecosystems does it protect?
- How does the site benefit people?
- What threatened plants or animals does the area protect?
- Is the site a nature reserve?
- Who looks after the site?
- What factors threaten the site?
- What could you or your school do to help conserve this site?
